

Girls' Winter Pants - Care Guide

Z-Vibe Winter Pants Atelier

Each pant carries a deliberate Bogolan mudcloth signature, hand-dyed with fermented mud. The cloth keeps settling for the first few washes, so wash cold, dry in shade and never bleach. Below is the routine for each fabric family in the collection.

PIECES AND FABRIC FAMILY

- Arctic Pearl Cargo - Technical winter shell
- Midnight Aurora Ski-Flare - Bonded softshell
- Emerald Orbit Jogger - Brushed fleece
- Rose Quartz Utility Trouser - Technical winter shell
- Garnet Prism Bib Pant - Technical winter shell
- Obsidian Halo Flare - Stretch velvet
- Glacier Blue Convertible Pant - Technical winter shell
- Cocoa Comet Pleat Pant - Wool flannel
- Lavender Circuit Puffer Pant - Quilted puffer
- Silver Dune Tailored Snow Pant - Technical winter shell

Technical winter shell

WASH AND DRY

- Machine wash cool (30 deg C) on a gentle cycle with a technical-fabric detergent.
- No fabric softener - it clogs the water-resistant finish.
- Tumble dry low or line dry; a short warm tumble re-activates the water repellency.
- Close every zip before washing so the gold hardware cannot mark the shell.
- Bogolan mudcloth is hand-dyed: keep it away from bleach and oxygen brighteners, wash cool, and dry out of direct sun so the motif stays deep.

PROTECTING THE BOGOLAN

Wash the piece alone the first time, always cold. Turn it inside out so the mudcloth panels do not rub. Dry flat in shade; never tumble the mudcloth on high heat, and never dry-clean with solvent, which strips the mud pigment.

ZIPPER VIBE INTERNATIONAL

Bonded softshell

WASH AND DRY

- Machine wash cool (30 deg C), gentle cycle, zips closed.
- No softener and no bleach - both flatten the fleece backing.
- Line dry away from direct heat; never iron the bonded face.
- Bogolan mudcloth is hand-dyed: keep it away from bleach and oxygen brighteners, wash cool, and dry out of direct sun so the motif stays deep.

PROTECTING THE BOGOLAN

Wash the piece alone the first time, always cold. Turn it inside out so the mudcloth panels do not rub. Dry flat in shade; never tumble the mudcloth on high heat, and never dry-clean with solvent, which strips the mud pigment.

ZIPPER VIBE INTERNATIONAL

Brushed fleece

WASH AND DRY

- Machine wash cool (30 deg C) inside out to protect the brushed face.
- Wash with like colours; skip the softener so the fleece stays lofted.
- Tumble dry low or line dry flat.
- Bogolan mudcloth is hand-dyed: keep it away from bleach and oxygen brighteners, wash cool, and dry out of direct sun so the motif stays deep.

Stretch velvet

WASH AND DRY

- Dry clean or hand wash cool, then roll in a towel - never wring the velvet.
- Dry flat away from radiators; steam from the reverse to lift the pile.
- Never iron directly on the velvet face or the studded belt.
- Bogolan mudcloth is hand-dyed: keep it away from bleach and oxygen brighteners, wash cool, and dry out of direct sun so the motif stays deep.

PROTECTING THE BOGOLAN

Wash the piece alone the first time, always cold. Turn it inside out so the mudcloth panels do not rub. Dry flat in shade; never tumble the mudcloth on high heat, and never dry-clean with solvent, which strips the mud pigment.

Wool flannel

WASH AND DRY

- Dry clean, or hand wash cool with a wool detergent.
- Dry flat in shade; press with a cloth on a wool setting.
- Air between wears instead of washing - flannel prefers it.
- Bogolan mudcloth is hand-dyed: keep it away from bleach and oxygen brighteners, wash cool, and dry out of direct sun so the motif stays deep.

PROTECTING THE BOGOLAN

Wash the piece alone the first time, always cold. Turn it inside out so the mudcloth panels do not rub. Dry flat in shade; never tumble the mudcloth on high heat, and never dry-clean with solvent, which strips the mud pigment.

ZIPPER VIBE INTERNATIONAL

Quilted puffer

WASH AND DRY

- Machine wash cool (30 deg C) on a gentle cycle, drawcord tied and zips closed.
- Tumble dry low with two dryer balls so the fill re-lofts evenly.
- Never dry clean; solvents strip the insulation.
- Bogolan mudcloth is hand-dyed: keep it away from bleach and oxygen brighteners, wash cool, and dry out of direct sun so the motif stays deep.
